EDUCATION

B.Tech – CS, KIET Group of Institutions, Ghaziabad GPA: 8.50/10 Aug 2023 – Jul 2027
Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming (Java)

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Solidity, SQL
- **Backend:** Node.js, Express.js, MongoDB, JWT, REST APIs
- **Frontend & Tools:** React.js, Redux Toolkit, TanStack Query, Tailwind CSS, Postman, Git, GitHub, CI/CD
- **Blockchain & Cloud:** Ethereum (Sepolia), Smart Contracts, Merkle Trees, MetaMask, Cloudinary

EXPERIENCE

Oasis Infobyte (AICTE Approved) — Web Development Intern Jul – Aug 2025

- Designed a **full-stack Pizza Delivery Web App** using the **MERN stack**, enabling **real-time order tracking** and refining custom pizza creation speed by **80%**.
- Added **Razorpay payment gateway** with a **95% transaction success rate**, ensuring secure and seamless online payments.
- Built an **admin dashboard** with automated **low-stock alerts** and inventory management, reducing stock issues by **40%** and improving operational efficiency by **50%**.

Microsoft Learn Student Ambassador (MLSA), KIET — Web Development Intern Oct 2024

- Developed a **full-stack web application** using the **MERN stack**, unified a responsive frontend and modular backend architecture.
- Incorporated **RESTful APIs** and **MongoDB schema** using **Node.js**, **Express.js**, uplifting application performance by **25%**.
- Implemented **JWT-based authentication** and **role-based access control (RBAC)** for secure user access and efficient request handling.

PROJECTS

SAKSHAM – Disability Certification Platform | Node.js (Express), MongoDB, JWT, Multer, React Feb – Mar 2026

- Architected a **secure full-stack certification platform** using the **MERN stack** with multi-role workflows (applicant, doctor, authority) and **RBAC** for **3+ user roles** and controlled access.
- Engineered **RESTful APIs**, applied **JWT-based authentication**, and built a **tamper-resistant record system**, upgrading data security and reducing unauthorized access attempts by **30%**.
- Structured backend services with modular architecture, enabling **scalable role-based workflows** and handling **100+ concurrent requests** with efficient request processing.

Trevo – Chat & Video Platform | React, Node.js (Express), MongoDB, JWT, Stream API Sep – Oct 2025

- Deployed a **real-time chat and video platform** supporting messaging, typing indicators, reactions, and **1-on-1 & group video calls** with screen sharing and recording for **50+ concurrent users**.
- Integrated **JWT-based authentication**, protected routes, and robust error handling across frontend and backend, improving application reliability and security.
- Produced a **language exchange platform** with **32+ dynamic UI themes** and optimized **state management** using **TanStack Query** and **Zustand** for efficient data flow and seamless UI updates.

VotoSphere – Online Voting Platform | React, Node.js (Express), MongoDB, JWT, SHA-256 Mar – Apr 2025

- Modeled a **secure multi-election voting platform** with **OTP-based authentication** and **SHA-256 vote hashing** for anonymous verification and data integrity.
- Established **audit-logged, tamper-resistant result management**, ensuring transparency and secure vote tracking across **3+ concurrent elections** with **100+ votes processed**.
- Devised efficient vote validation and result aggregation workflows, ensuring data consistency across concurrent voting requests and supporting **50+ concurrent voting requests** without conflicts.

ACHIEVEMENTS

- **GATE 2026 Qualified** – secured qualification in **Computer Science**.
- **1st Runner-up**, InnoTech – placed 2nd among **20+ teams** at a Intra-college tech innovation competition.
- **300+ LeetCode Problems** solved across arrays, linked lists, binary trees, graphs, DP (knapsack, LCS, coin change), and sliding window patterns.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – validated knowledge of cloud fundamentals including EC2, S3, IAM, and core AWS services.
- **Cisco Networking Essentials** – covered core networking concepts including IP addressing, routing, switching, and network security principles.
- **Database Programming with SQL (Oracle Academy)** – covered relational database design, SQL queries, joins, indexing, and data manipulation.
